<b>Land Trail</b>	<b>487.62</b>
<b>Hudson River Water Trail</b>	<b>256.00</b>
<b>Greenway Trail System Total</b>	<b>743.62</b>

County and Trail Name	Designated Miles
Riverside Trails	
Countryside Corridors	
Connector Trails	
<p>1. Riverside Trails – Routes along or near both shores of the Hudson River that hug the Hudson River shoreline providing access to the river; or that run along the ridge lines with views of the river. The routes will directly connect riverside open spaces, river access sites, historic sites and scenic downtowns, as well as link community trail systems.</p>	
<p>2. Countryside Corridors – A network of rail trails, utility easement lines and shared roadways that connect the countryside communities in the Greenway area to those along the river (Riverside Trails).</p>	
<p>3. Connector Trails – The Greenway recognizes that many communities have trail resources that do not fit easily into the above categories, but are important connections between the Riverside Trails and Countryside Corridors. Since the Greenway’s primary goal is to make connections between resources, communities and the Hudson River, trails that provide these connections are included in the Greenway Trail system.</p>
